CONTENTS OF APPENDIX.

For convenience in referring to the tables in the Appendix, a brief synopsis will be given, indicating what may be found in certain divisions, classes or single tables.

The tables are numbered from 1 to 312, consecutively, and are arranged in two general divisions. The first division—Tables Nos. 1 to 183, inclusive—is devoted to the current year's transactions and is subdivided into several classes, viz.:

First—Tables No. 1, pages 2 and 3, to No. 12, pages 16 and 17, inclusive, treat principally of the receipts, disbursements, transfers and proper division of money in the treasury.

Second—Tables No. 13, pages 18 and 19, to No. 27, page 23, inclusive, represent the transactions through the several general ledger funds.

Third—Tables No. 28, pages 24 and 25, to No. 66, page 95, inclusive, are composed of classified miscellaneous auxiliary accounts.

Fourth—Tables No. 67, pages 96 and 97, to No. 155, pages 238 and 239, inclusive, detail the transactions between the State and counties.

Fifth—Tables No. 156, pages 240 and 241, to No. 183, page 265, inclusive, exhibit the accounts of the various State institutions, as compiled from papers filed with the Auditor General, under act 148, laws of 1873.

The second division—Tables 184 to 312, inclusive—is made up of various classes of tabular work in which the current year's work is combined with that of former years for the purpose of making comparative statements.

"DAILY BUSINESS" BOOK.

Table No. 1, pages 2 and 3, contain the year's transactions on a form of this book. This is essentially a book of balances, in which is shown, at the close of business each day, a balanced General Ledger, a balanced Appropriation Ledger, and a balanced Bond Register; also the condition of the Two-Million-Loan Sinking Fund; also, the receipts to the several educational funds which are applicable to the expenses of the State Government, under act 22, laws of 1875; also, balance in the Treasury, with increase or decrease, at different dates, and receipts and disbursements for different periods during the year; also, maximum and minimum balances, with dates; also a division of the General Ledger balances into two parts. One part—Revenue—represents the various balances belonging to the State as principal. The other part—non-Revenue—represents the various balances carried by the State as agent or trustee.

The "Recapitulation" shows that of the \$1,151,536.39 in the Treasury June 30, 1890, \$941,605.24 belongs to the State as principal for the payment of appropriations and other expenses of government maturing prior to the receipt of money upon the levy in December next. The remaining \$209,654.54 is in the Treasury in the nature of a trust and is in no sense any part of its revenue.

LEDGER BALANCES.

The balance of the General Ledger accounts at the close of June 29, 1889, and June 30, 1890, the receipts to, and expenditures from, each fund, dur-

ing 1890, and the transfers between funds for same period, with references to the fund tables, are given in Table No. 2, page 4. The balances of the Trust Funds, June 29, 1889, the debits and credits during the year, and the balances June 30, 1890, are shown in Table No. 2 A, page 5. The condition of accounts grouped in "*Sundry Deposits Account*," is shown in Table No. 2 B, page 5.

TRANSFERS.

Table No. 3, page 6, contains the transfers for the year. The notes attached to this table explain the transfers.

THE CHANGES IN THE TREASURY BALANCE

during and to the close of each month; receipts and expenditures to close of month; balances to close of month, with amount of, in bank, and amount of, in treasury, are stated in Table No. 4, page 7.

USE OF THE MONEY RECEIVED THROUGH THE EDUCATIONAL FUNDS.

Table No. 5, pages 8 and 9, shows the net receipts, by years, through the several educational funds; also the amounts which were transferred to the general and two-million-loan sinking funds, respectively.

ANNUAL ANALYSIS.

The receipts and disbursements for the year are stated in gross by funds, and the refundings and reimbursements deducted, leaving the net, which is separated into revenue and non-revenue, in Table No. 6, page 10.

THE RECAPITULATION FROM THE DAILY BUSINESS BOOK

is copied for the 15th and last days of each month during the year, giving the treasurer's balance and its proper division. Against one division—revenue—stands a certain class of demands, viz.: the amount, if any, in two-million-loan sinking fund and the unexpended portion of appropriations. The exact condition, for the days stated, is given in Table No. 7, page 11.

THE RECEIPTS AND DISBURSEMENTS

for each day in the year are given in Tables Nos. 8 and 9, pages 12 and 13. From July 1, 1889, to close of each day during the year in Tables Nos. 10 and 11, pages 14 and 15.

THE BALANCES CHARGED STATE TREASURER

at the close of each day's business, the daily increase or decrease, the maximum and minimum balances since the commencement and during the year; also the number of times in each month and during the year that the balance has increased or decreased, or the maximum or minimum changed, are shown in Table No. 12, pages 16 and 17.

THE GENERAL LEDGER FUNDS

consist of Tables No. 13, page 18, to No. 27, page 23, inclusive, and, as stated, exhibit the relations of the different funds with the State Treasury. But as all receipts and disbursements during the year are credited or charged to these funds, it is impossible to fully itemize in every fund table. Hence the arrangement by classes and references by numbers to sub-tables for details.

TOWN PLATS FILED UNDER ACT 108 LAWS OF 1873, AND SUBSEQUENT AMENDMENTS.

Table No. 312, pages 492 to 499, inclusive, shows the town plats filed in this office under the above act during the year. This list is arranged alphabetically by cities and villages.

The number recorded during the year is two hundred and eighty-four, and since the law became operative, is three thousand and sixty-nine.

While the main features of the Tax Law of 1889 seem to work very satisfactorily, experience has demonstrated the desirability of a few changes as to details.

The precise time when costs, charges and other expenses imposed by sections 52 and 53 shall become chargeable and collectible should be definitely fixed, and a specific fee to County Clerks, which should be chargeable against the land for issuing subpoenas provided for.

HENRY H. APLIN,
Auditor General.

SUPPLEMENT.

My report not having passed out of the publishers' hands prior to December 31, 1890, I have deemed it not inappropriate to make a brief statement of the condition of the funds of the State at that date. Reference is therefore made to statement "A" of the supplement. This shows but one fund (the war fund) overdrawn by \$1,011,61, while the others show credits aggregating \$604,527.37, leaving a net cash balance in the treasury of \$603,515.76.

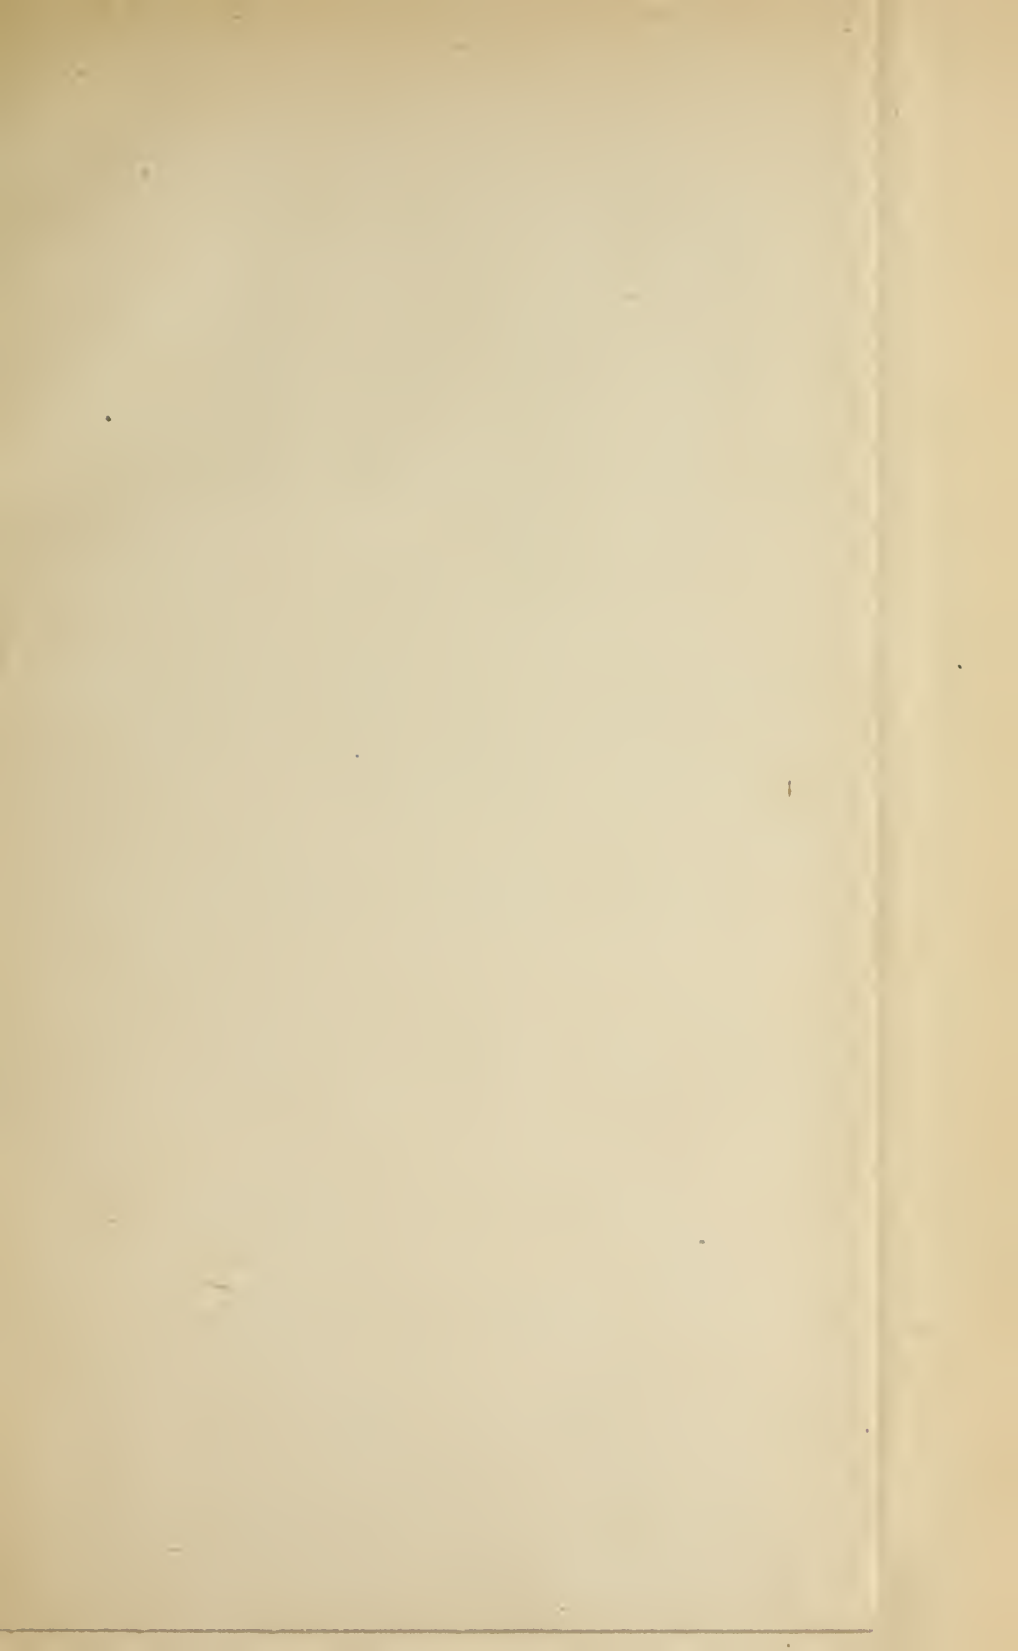

The situation financially is a healthy one, as, aside from the funds pledged for specific purposes, there is available \$370,033.16 to meet salaries of officers, State and judicial, expenses of the Legislature, per diem and incidentals, advance appropriations, amounts due counties upon settlement, and sundry expenses of State boards until such time as the tax levy for 1890 finds its way into the State treasury, which is largely in the months of March and June, under existing conditions.

There are no outstanding warrants and no State bonds, excepting \$19,000 of part-paid bonds, adjustable at \$10,992.83. These bonds are past due and non-interest bearing. As no trace of them can be obtained, it is probable they have been lost. I suggest the propriety of thoroughly advertising a call for them for a certain time, after which, if nothing can be learned about them, they be charged from the books and the accounts closed.

For the first time in more than a half century of our State's history the year closes without an interest-bearing bond outstanding. The last dollar has been paid.

The issue of bonds alone has amounted to over \$13,000,000, and, with interest demands added, has been a heavy burden upon a young State. During the time covered by the payment of these vast sums our capitol and a fine equipment of State institutions have been built and paid for as the work progressed. Our rate of State taxation has constantly been kept below that of most of the states in the union, and it is to me a source of satisfaction to feel, as I retire from office, that the State is financially in such good condition.

HENRY H. APLIN,
Auditor General.

a The Interest on the War-Bounty-Loan is payable in May and November. Prior to 1871 the Fiscal Year closed November 30. The time of closing was changed in 1871 to September 30, hence only the May interest of 1871 was payable in that Fiscal Year.

These bonds are redeemable "at the pleasure of the State at any time after the expiration of the twenty-five years from and after May 1, 1865;" proceeds to be used in paying a State Bounty to Volunteers mustered into the military service of the United States. No bonds have been issued under Act No. 295 of 1865, approved March 21, 1865.
